

Circular Table Topper

Finished Size: approx. 19" diameter

Materials

Fabric for Top: Two pieces - each 20" x 20"

Backing and batting: each 21" x 21"

Binding: 1/8 yd *Note: does not need to be bias*

Pattern Fabric

Pellon 830 Easy Pattern (45" wide) - 1/3 yd OR

Swedish Tracing Paper Fabric (29" wide) - 2/3 yd

Peekaboo Fabric Tools™ - 3 & 10 inch sizes

Cut from the pattern fabric

4 - 10" x 10" squares

4 - 3" x 3" squares

Trace

Align each Peekaboo Fabric Tool with the edges of the matching size square of pattern fabric. Trace the inner leaf shape edge with a FriXion pen or other marking pen or pencil. *It doesn't matter which side of the pattern cloth you mark on.*

Making the Reverse Applique Leaf Cutouts

1 Choose which fabric of the two - 20 inch square pieces will be the top with the reverse applique and which will be the bottom *Peekaboo* fabric.

2 Place and pin the 4 - 10" squares of pattern fabric, edges aligned with each other and the outer edges of the 20 inch square of fabric. Position the oval shapes so they are in a circular pattern. (Figure 1)

3 Sew along the marked line with a 1.5 mm stitch. Trim close to the inside edge of the leaf shape and turn. (Figure 2) Trim the pattern fabric to about 1 inch on the inner edges of each leaf shape. (Figure 3) Use a bit of glue stick to hold the pattern fabric down and in place.

Tip: Refer to the Peekaboo Fabric Tool instruction video for more detailed instructions on marking, sewing and turning the pattern fabric.

Figure 2

Figure 3

Circular Table Topper

4 Chalk 2 lines to mark the center of the 20 inch piece of cloth. Place the 3 inch pattern fabric squares in the center, 2 edges lined up with the chalk lines and the leaf shapes pointed to the center (Figure 4). Sew along the marked lines making sure the 10 inch leaf shape pattern fabric is out of the way. (Figure 5) Trim, and turn as in step 3. (Figure 6) *Note: the pattern fabric for the 3 inch leaf cutout does not need further trimming.*

Quilting & Finishing

5 First layer the backing, batting and peekaboo fabric. Then add the top with the reverse applique. Spray baste and/or pin. (Figure 7) Edge stitch around each leaf shape first. (*as close as a 1/16th or 1/8th inch*) Echo quilting works well around the outside of the reverse applique. To form the circular shape, echo quilt around the circle formed by the outer edges of the 10 inch leaf shapes until you will almost run off the top most layer. The outer most stitching line will be the cutting line. (Figure 8)

Outer most echo quilting line that becomes the cutting line

6 Quilting inside the leaf shape will depend on the fabric used, e.g. the quilting for this table topper is around each pepper. Trim along that outer most echo quilting line and add the binding.
